

myFC awarded funding from Swedish Agency for Economic and Regional Growth (Nutek)

myFC had been awarded funding for a development project for its innovative micro fuel cell. The project worth over €20,000 will be performed in cooperation with the Royal Institute of Technology in Stockholm. The money will be used to increase the speed of myFC's product development.

Fredrik Lindberg, myFC's CEO stated, "The awarded funding shows our strength in micro fuel cell technology."

Nutek strengthens trade and industry throughout Sweden by contributing to the creation of new enterprises, helping existing enterprises to grow and strengthening regional growth. Nutek is the Swedish Agency for Economic and Regional Growth.

About myFC

myFC AB is a private Swedish company with its headquarter in Stockholm. myFC was founded in 2005. myFC's business idea is to increase the freedom of mobility for portable electronics users by removing the power cord.

myFC develops micro fuel cells based on myFC's patent-protected technology. The innovation will add value to our customers' products by increasing the operating time and hence mobility as well. The flexible design and production process also offer the customers a cost-effective, high volume manufacturing solution. For more information, visit www.myfc.se.
